

22 April 1955

MEMORANDUM FOR: DD/P Review Board

SUBJECT: Operational Program, FI Staff, FY 56 and 57

1. The support components of the DD/S have made a review of the FI Operational Program for FY 56-57 to appraise their ability to provide the support requirements inherent therein.

2. It was observed that a substantial increase in the numbers of personnel is contemplated and that Project [REDACTED] is stated to require additional funds to fulfill equipment needs. In this connection the support components point out that the program does not indicate the existence of any extraordinary support requirements and also that during the earlier development of this program no such requirements were brought to their attention.

3. In view of these circumstances the support components confirm their ability to support the program subject to the correctness of the following assumptions:

a. That the funds requested are adequate to cover any direct support requirements of the Program. (Fund provisions have been made elsewhere in the Agency budget for standard items and routine services.)

b. That the actual support requirements which will be placed upon the support components will be presented at an early enough date to permit their accomplishment on a timely basis.

MEMORANDUM FOR: DD/P Review Board

SUBJECT: Operational Program, CI Staff, FY 56 and 57

1. The support components of the DD/S have made a review of the CI Operational Program for FY 56-57 to appraise their ability to provide the support requirements inherent therein.

2. No significant change in the nature or scope of the program and its related support requirements was discernible from this review nor have the support components been otherwise alerted to the existence of any extraordinary support requirements.

3. In view of these circumstances the support components confirm their ability to support the Program subject to the correctness of the following assumptions:

a. That the funds requested are adequate to cover any direct support requirements of the Program. (Fund provisions have been made elsewhere in the Agency budget for standard items and routine services.)

b. That the actual support requirements which will be placed upon the support components will be presented at an early enough date to permit their accomplishment on a timely basis.
